

SAFETY DATA SHEET (SDS)

Section 1. Identification		
Product identifier	ICE SALT – ROCK SALT	
Other means of identification	910, 915, 917, 920, 940, 910W	
Recommended use and restrictions on use	De-icing	
Initial supplier identifier	Sable Marco, Inc. 26, Chemin de la Pêche, Pont-Rouge, QC, G3H 1C3, Tel. 418-873-4509	
Emergency telephone number/restriction on use	Canada – CANUTEC 24 hour number 613-996-6666	
Section 2. Hazard identification		
Classification of hazardous product (name of the category or subcategory of the hazard class)		
None		
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)		
None		
Other hazards known	None	
Section 3. Composition/information on ingredients		
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Sodium chloride	7647-14-5	60-100
* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).		
Section 4. First-aid measures		
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a doctor.	
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.	
Skin contact	IF ON SKIN: Rinse skin with water.	
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes.	
Most important symptoms and effects (acute or delayed)	May cause mild transient eye irritation.	
Indication of immediate medical attention/special treatment	In all cases, call a doctor. Do not forget this document.	
Section 5. Fire-fighting measures		
Specific hazards of the hazardous product (hazardous combustion products)		
Carbon oxides and other irritant/toxic gases and fumes.		
Suitable and unsuitable extinguishing media		
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.		
Special protective equipment and precautions for fire-fighters		
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.		
Section 6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).		
Methods and materials for containment and cleaning up		
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.		
Section 7. Handling and storage		
Precautions for safe handling		
Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.		
Conditions for safe storage, including any incompatibilities		
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.		

Section 8. Exposure controls/Personal protection						
Control parameters (biological limit values or exposure limit values and source of those values)						
Exposure limits: Dust - PEL-TWA 15 mg/m ³ (total dust) & 5 mg/m ³ (respirable fraction);						
Appropriate engineering controls						
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.						
Individual protection measures/personal protective equipment						
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.						
Section 9. Physical and chemical properties						
Appearance, physical state/colour		White solid		Vapour pressure	Not available	
Odour		Odourless		Vapour density	Not available	
Odour threshold		Not available		Relative density	2.165	
pH		5.5-9.5		Solubility	Soluble	
Melting/freezing point		1.4°C		Partition coefficient - n-octanol/water		Not available
Initial boiling point/range		Not available		Auto-ignition temperature		Not available
Flash point		Not available		Decomposition temperature		Not available
Evaporation rate		Not available		Viscosity		Not available
Flammability (solids and gases)		Not available		VOC		Not available
Upper and lower flammability/explosive limits		Not available		Other		None known
Section 10. Stability and reactivity						
Reactivity						
Does not react under the recommended storage and handling conditions prescribed.						
Chemical stability						
Stable under the recommended storage and handling conditions prescribed.						
Possibility of hazardous reactions						
None known.						
Conditions to avoid (static discharge, shock or vibration)						
None known.						
Incompatible materials						
None known.						
Hazardous decomposition products						
None known						
Section 11. Toxicological information						
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)						
May cause mild transient eye irritation.						
Symptoms related to the physical, chemical and toxicological characteristics						
Eye irritation, redness, tearing;						
Delayed and immediate effects (chronic effects from short-term and long-term exposure)						
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.						
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)						
CAS 7647-14-5 LD ₅₀ Oral - Rat - 3000 mg/kg;						
ATE not available in this document.						
Section 12. Ecological information						
Ecotoxicity (aquatic and terrestrial information)						
No data available for the product.						
Persistence and degradability		No data available				
Bioaccumulative potential		No data available				
Mobility in soil		No data available				
Other adverse effects		No data available				
Section 13. Disposal considerations						
Information on safe handling for disposal/methods of disposal/contaminated packaging						
Dispose of contents/container into safe container in accordance with local, regional or national regulations.						

Section 14. Transport information		
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG/49 CFR Regulations		
NOT REGULATED		
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)		
NOT REGULATED		
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)		
NOT REGULATED		
Special precautions (transport/conveyance)	None	
Environmental hazards (IMDG or other)	None	
Bulk transport (usually more than 450 L in capacity)	Possible	
Section 15. Regulatory information		
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).	
Environmental Canadian regulations specifics	Ingredient(s) of the DSL	
Safety/health/environmental outside regulations specifics	None	
Section 16. Other information		
Date of the latest revision of the safety data sheet	January 04, 2021 version 2 (NSS ENTREPRISE INC)	
Corrections	Section 3; 8;	
References	Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS.
