

SAFETY DATA SHEET (SDS)

Section 1. Identification		
Product identifier	SANDBLAST SAND	
Other means of identification	451; 452; 453; 494; 495; 496	
Recommended use and restrictions on use	Sand	
Initial supplier identifier	Sable Marco, Inc. 26, Chemin de la Pêche, Pont-Rouge, QC, G3H 1C3, Tel. 418-873-4509	
Emergency telephone number/restriction on use	Canada – CANUTEC 24 hour number 613-996-6666	
Section 2. Hazard identification		
Classification of hazardous product (name of the category or subcategory of the hazard class)		
Carcinogenicity (Category 1)		
Specific target organ toxicity – repeated exposure (Category 1), Organs		
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)		
<div></div>		
DANGER		
H350 May cause cancer.		
H372 Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).		
P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P260 Do not breathe dusts or mists. P264 Wash hands/nails/face thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P280 Wear gloves/protective clothing/eye protection/face protection. P308 + P313 IF exposed or concerned: Get medical attention. P314 Get medical attention if you feel unwell. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.		
Other hazards known	May cause slight transient irritations. Possible mechanical irritations.	
Section 3. Composition/information on ingredients		
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Silica, Crystalline (Quartz); sand	14808-60-7	60-100
* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).		
Section 4. First-aid measures		
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.	
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.	
Skin contact	IF ON SKIN: Wash with plenty of water.	
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes.	
Most important symptoms and effects (acute or delayed)	May cause slight transient irritations. Possible mechanical irritations.	
Indication of immediate medical attention/special treatment	In all cases, call a doctor. Do not forget this document.	
Section 5. Fire-fighting measures		
Specific hazards of the hazardous product (hazardous combustion products)		
Carbon oxides and other irritant/toxic gases and fumes.		
Suitable and unsuitable extinguishing media		
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.		
Special protective equipment and precautions for fire-fighters		
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.		
Section 6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).		
Methods and materials for containment and cleaning up		
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.		

Section 7. Handling and storage					
Precautions for safe handling					
Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.					
Conditions for safe storage, including any incompatibilities					
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.					
Section 8. Exposure controls/Personal protection					
Control parameters (biological limit values or exposure limit values and source of those values)					
Exposure limits: CAS 14808-60-7 ACGIH – TLV-TWA 0.025 mg/m ³ (respirable particles) & PEL-TWA 10 mg/m ³ (respirable particles) & 30 mg/m ³ (total dust);					
Appropriate engineering controls					
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.					
Individual protection measures/personal protective equipment					
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.					
Section 9. Physical and chemical properties					
Appearance, physical state/colour		Gray-brown solid	Vapour pressure	Not available	
Odour	Odourless		Vapour density	Not available	
Odour threshold	Not available		Relative density	Not available	
pH	Not available		Solubility	Insoluble	
Melting/freezing point		Not available	Partition coefficient - n-octanol/water		Not available
Initial boiling point/range		Not available	Auto-ignition temperature		Not available
Flash point		Not available	Decomposition temperature		Not available
Evaporation rate		Not available	Viscosity		Not available
Flammability (solids and gases)		Not available	VOC	Not available	
Upper and lower flammability/explosive limits		Not available	Other	None known	
Section 10. Stability and reactivity					
Reactivity					
Does not react under the recommended storage and handling conditions prescribed.					
Chemical stability					
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
None known.					
Conditions to avoid (static discharge, shock or vibration)					
None known.					
Incompatible materials					
None known.					
Hazardous decomposition products					
None known					

Section 11. Toxicological information		
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)		
May cause slight transient irritations. Possible mechanical irritations. May cause cancer. Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).		
Symptoms related to the physical, chemical and toxicological characteristics		
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing; Respiratory tract irritation, coughing, ...		
Delayed and immediate effects (chronic effects from short-term and long-term exposure)		
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Yes, possible according to IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – Possible; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.		
Numerical measures of toxicity (ATE; LD₅₀ & LC₅₀)		
None ATE not available in this document.		
Section 12. Ecological information		
Ecotoxicity (aquatic and terrestrial information)		
No data available for the product.		
Persistence and degradability	No data available	
Bioaccumulative potential	No bioaccumulation is to be expected.	
Mobility in soil	No data available	
Other adverse effects	No data available for the product.	
Section 13. Disposal considerations		
Information on safe handling for disposal/methods of disposal/contaminated packaging		
Dispose of contents/container into safe container in accordance with local, regional or national regulations.		
Section 14. Transport information		
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG/49 CFR Regulations		
NOT REGULATED		
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)		
NOT REGULATED		
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)		
NOT REGULATED		
Special precautions (transport/conveyance)	None	
Environmental hazards (IMDG or other)	None	
Bulk transport (usually more than 450 L in capacity)	Possible	
Section 15. Regulatory information		
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).	
Environmental Canadian regulations specifics	Ingredient(s) of the DSL	
Safety/health/environmental outside regulations specifics	None	

Section 16. Other information	
Date of the latest revision of the safety data sheet	December 02, 2020 version 2 (NSS ENTREPRISE INC)
Corrections	Section 3;
References	Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS.
Abbreviations	
ACGIH	American Conference of Governmental Industrial Hygienists
ATE	Acute toxicity estimate
CAS	Chemical Abstract Service
DSL	Domestic Substance List
IARC	International Agency for Research on Cancer
LC	Lethal concentration
LD	Lethal Dosage
NIOSH	National Institute for Occupational Safety and Health
NTP	National Toxicology Program (U.S.A.)
OSHA	Occupational Safety and Health Administration (U.S.A.)
PEL	Permissible Exposure Limit
STEL	Short-term Exposure Limit
TLV	Threshold Limit Value
TSCA	Toxic Substances Control Act
TWA	Time Weighted Average
WHMIS	Workplace Hazardous Materials Information System
To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
