

## SAFETY DATA SHEET (SDS)

Section 1. Identification		
Product identifier	Polymeric sand EV Evolution and Polymeric Stone Dust EV Evolution	
Other means of identification	440-442-444-446-448-443-445-447	
Recommended use and restrictions on use	Construction material, polymeric sand, polymeric stone dust	
Initial supplier identifier	Sable Marco, Inc. 26, Chemin de la Pêche, Pont-Rouge, QC, G3H 1C3, Tel. 418-873-4509	
Emergency telephone number/restriction on use	Canada – CANUTEC 24 hour number 613-996-6666	
Section 2. Hazard identification		
Classification of hazardous product (name of the category or subcategory of the hazard class)		
Carcinogenicity (Category 1)		
Specific target organ toxicity – repeated exposure (Category 1), Organs		
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)		
<div></div>		
DANGER		
H350 May cause cancer.		
H372 Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).		
P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P260 Do not breathe dusts or mists. P264 Wash hands/nails/face thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P280 Wear gloves/protective clothing/eye protection/face protection. P308 + P313 IF exposed or concerned: Get medical attention. P314 Get medical attention if you feel unwell. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.		
Other hazards known	None	
Section 3. Composition/information on ingredients		
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Silica-crystalline, Quartz (sand)	14808-60-7	60-100
Ethylene and vinyl acetate copolymer	24937-78-8	< 5
* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).		
Section 4. First-aid measures		
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.	
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.	
Skin contact	IF ON SKIN: Wash with plenty of water.	
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes.	
Most important symptoms and effects (acute or delayed)	None	
Indication of immediate medical attention/special treatment	In all cases, call a doctor. Do not forget this document.	
Section 5. Fire-fighting measures		
Specific hazards of the hazardous product (hazardous combustion products)		
Carbon oxides and other irritant/toxic gases and fumes.		
Suitable and unsuitable extinguishing media		
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.		
Special protective equipment and precautions for fire-fighters		
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.		
Section 6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).		
Methods and materials for containment and cleaning up		
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.		

Section 7. Handling and storage			
<b>Precautions for safe handling</b>			
Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.			
<b>Conditions for safe storage, including any incompatibilities</b>			
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.			
Section 8. Exposure controls/Personal protection			
<b>Control parameters (biological limit values or exposure limit values and source of those values)</b>			
Exposure limits: Dust - CAS 14808-60-7 ACGIH – TLV-TWA 0.025 mg/m <sup>3</sup> (respirable particles) & PEL-TWA 10 mg/m <sup>3</sup> (respirable particles) & 30 mg/m <sup>3</sup> (total dust);			
<b>Appropriate engineering controls</b>			
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.			
<b>Individual protection measures/personal protective equipment</b>			
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.			
Section 9. Physical and chemical properties			
<b>Appearance, physical state/colour</b>	Gray, beige, white, black, Solid	<b>Vapour pressure</b>	Not available
<b>Odour</b>	Mild	<b>Vapour density</b>	Not available
<b>Odour threshold</b>	Not available	<b>Relative density</b>	Not available
<b>pH</b>	6.5-8.5	<b>Solubility</b>	Insoluble
<b>Melting/freezing point</b>	Not available	<b>Partition coefficient - n-octanol/water</b>	Not available
<b>Initial boiling point/range</b>	Not available	<b>Auto-ignition temperature</b>	Not available
<b>Flash point</b>	Not available	<b>Decomposition temperature</b>	Not available
<b>Evaporation rate</b>	Not available	<b>Viscosity</b>	Not available
<b>Flammability (solids and gases)</b>	Not available	<b>VOC</b>	Not available
<b>Upper and lower flammability/explosive limits</b>	Not available	<b>Other</b>	None known
Section 10. Stability and reactivity			
<b>Reactivity</b>			
Does not react under the recommended storage and handling conditions prescribed.			
<b>Chemical stability</b>			
Stable under the recommended storage and handling conditions prescribed.			
<b>Possibility of hazardous reactions</b>			
None			
<b>Conditions to avoid (static discharge, shock or vibration)</b>			
None			
<b>Incompatible materials</b>			
None			
<b>Hazardous decomposition products</b>			
None known			
Section 11. Toxicological information			
<b>Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)</b>			
May cause cancer. Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).			
<b>Symptoms related to the physical, chemical and toxicological characteristics</b>			
None			
<b>Delayed and immediate effects (chronic effects from short-term and long-term exposure)</b>			
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Yes, possible according to IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity – Single Exposure – No data available; Specific Target Organ Toxicity – Repeated Exposure – Possible; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.			
<b>Numerical measures of toxicity (ATE; LD<sub>50</sub> &amp; LC<sub>50</sub>)</b>			
None ATE not available in this document.			

Section 12. Ecological information		
Ecotoxicity (aquatic and terrestrial information)		
No data available for this product.		
Persistence and degradability	No data available	
Bioaccumulative potential	No bioaccumulation is to be expected.	
Mobility in soil	No data available	
Other adverse effects	No data available	
Section 13. Disposal considerations		
Information on safe handling for disposal/methods of disposal/contaminated packaging		
Dispose of contents/container into safe container in accordance with local, regional or national regulations.		
Section 14. Transport information		
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG/49 CFR Regulations		
NOT REGULATED		
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)		
NOT REGULATED		
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)		
NOT REGULATED		
Special precautions (transport/conveyance)	None	
Environmental hazards (IMDG or other)	None	
Bulk transport (usually more than 450 L in capacity)	Possible	
Section 15. Regulatory information		
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).	
Environmental Canadian regulations specifics	Ingredient(s) of the DSL	
Safety/health/environmental outside regulations specifics	None	
Section 16. Other information		
Date of the latest revision of the safety data sheet	January 04, 2021 version 2 (NSS ENTREPRISE INC)	
Corrections	Section 2; 3; 8; 11;	
References	Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS.
